In the afternoon of Saturday he informed his relations, with whom he was stopping at No. 811 Cherry street, that he would leave for North East in the 4 o'clock train that day. He then left and has not been heard of since.

A Man Killed by the Cars .- John Pyle, residing near Jannerville, Chester county, was rum over by the cars, on the P. & B. C. R. R., near Oxford, on Friday evening, March 24th. He had been in the village of Oxford, drank too much liquor, and after getting in the cars to go home, got out as they were starting, and after awhile started for home on foot, along the railroad track. It is supposed he laid down on the track about a mile east of Oxford, where the train coming south came upon him, mangling the body of the unfortunate man in a most horrible manner. The Oxford Press, from which we derive the above facts, says the young man was an excellent mechanic. and that day was the first he had been idle into a rum trap, followed by a fearful, speedy death.

License Notice.-In the notice published by the Sheriff, concerned the taking out licenses, will be found much information which should be familiar to every one The Act prescribing the requirements for "Ordinaries and Tavern Keepers," is constantly violated in that part relating to fish. rooms, bedding and stabling. The Act relating to Hawkers and Peddlers, it will be seen, retains a relic of the "black laws" of other days. Section "twenty-two" enacts that "No such license shall be granted to any other than a white person, &c.," which contervening the Constitution of the United States, becomes, of course a, dead letter. It will be observed that the North East license law is somewhat peculiar, the power to grant or withhold license being made optional with the Judge of the Circuit Court.

Reception .- The family of Rev. H. S. Thompson, the newly-appointed minister of the Elkton M. E. Church, arrived or Wednesday evening last, and were cordially received by the members of the charge, who tendered them a reception. The ladies met at the parsonage in the afternoon, and in the lap of Spring since Sunday, includprepared a supper, which was in waiting ing that day with its fall of snow. On upon the arrival of the guests. Some of Wednesday morning a general frost and the official members, with their wives, and considerable ice. others of the older members, were at the parsonage to welcome the family, and to made in this community, in the matter of sup with them. After tea the Choir gave domicels, this Spring. an entertainment, to which a goodly number of the young people of the Church and extend a hearty greeting to the new pastor, been put in operation on our waters yet. and to participate in the enjoyment of the evening. The Choir sang several selections, with organ accompaniments, and the whole company spent the greater part of the time in singing the songs of Zion and Theo. J. Vanneman, of Port Deposit, was in social converse. About 10 o'clock an sunk near Pool's Island, in the gale of inviting repast was served, after the par-taking of which, prayer was offered, and with yellow pine, so we will yellow pine and so with yellow pine and so with yellow pine and so we will yellow pine and so with yellow pine and so we will yellow pine and so with yellow pine and by the "run" at his store we judge the public are strong supporters of the company gradually dispersed. to promote the growth of the Hair and stop its falling.
It is extract harmless and perfectly free from any poisonous substance, and will, therefore, take the place of all the dirty and unjeasunt preparations now is use. Numerous testimonials have been sent up from many of our most prominent citizens, some of which are subjoined; in everything in which the articles now in use are objectionable, Christa. Discoverar is perfect; it is warranted to contain neither Sugar of Lead, Sulphur or Nitrate of Silver. Clear and clean as water, it does not soil the clothes or scalp; it is agreeably perfamed, and makes one of the leaf it does not soil the clothes or scalp; it is agreeably perfamed, and make one of the leaf dressings for the laif in use; it restores the color of the hair looke prefectly and this rooms in from three to ten days. Virtually feeling the roots of the hair with all the nonrishing qualities necessary to its growth and healthy condition, it restores the dear of the nature and away and induces a new growth of the hair more positively than anything else. The application of this wonderful discovery also produces a pleasant and cooling effect on the scalp, and gives the hair a pleasant and elegant agdiscovery also produces a pleasant and cooling effect on the scalp, and gives the hair a pleasant and elegant ap-pearance.

WASHINGTON, August 5th, 1870. MR. ARTHUR NATIVAL—Hear Sir. I do not heritate to say that your Crystal Discovery descree to supercede all other freparations claiming to restore the growth and color of the hair. I have used it a week now, and my hair Las already resumed its natural shade, and has cased falling almost entirely. I cheerfully recommend it. Respectfully, MIS. ANNIE MOURAIN.

#### CONSUMPTION. ITS CURE AND ITS PREVENTIVE BY J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted DR. JOSEPH H. SCHENCIOS SIMPLI TREATMENT

and availed themselves of his wonderfully efficacious medicines they would not have fallen. Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicined and his directions for their use, is quickened into health follying. In this statement there is nothing presumptions. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is untailing. Its philosophy requires no argument. It is self-assuring, self-convincing. The Sra-weel Tonic and Mandrake Pills are the first two weapons with which the citadel of the malaly is seculed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here then comes the culminating result, and the setting in with all its distressing symptoms of

CONSUMPTION. The Mandrake Pills are composed of one of Nature's noblest gifts—the Polophillum Peltatum. They possess ill the blood-sarching, alterative properties of calomel, fat units calomel, they

"LEAVE NO STING BEHIND." The work of cure is now beginning. The vitiated and narous deposits in the bowels and in the alimentary and are ejected. The liver like a clock is wound up,—a ranuse inon its torpidity. The stomach acts responsively, and the patient begins to fest that he is getting a last

A Supply of Good Blood. The Sea-weed Tonic, in conjuction with the Pills, per-reates and assimilates with the food. Chylification is The Seaweed Tonic, in conjuction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digostion becomes paintees, and the cure is seen to be at hand. There is no more fistulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent Father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated, it collects and ripens the input red and diseased portions of the lungs in the form of gatherings it prepares them for expectoration, and lot in a very short time the malady is vanished, the rotten through technique is renovated and made new, and the patient, in all the dignity of regained that was

that was GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to presented, they could be seen to king cold when the lungs are diseasel, but it must be presented, or a cure cannot be effected. Fresh air and reling cut, especially in this section of the country in the fail and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are body diseased, and yet, because they are in the Isasse they must not sit down quiet; they must walk about the room as much and is fast as the strength will bear to get up a good circulation of blood. The patients must keep in good significance of the patients and keep in good significance of its possibility in the worst cases, and mend certainty in all others, is sinful. Dr. Schem & personal statement to the Faculty of his own cure was in these molect words:

"Many vers ago I was in the bast stages of consumption; conduct to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of and obtaining the preparations which I now offer to the public, and they made a perfect cuts of me, It seemed to me that I could feel them penetrate my shole system. They soon risened the natter on my imags, and I would spit up more than a pint of oftensive yellow matter every morning for a long time.

"A soon as that began to subside, my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with great difficulty that I could keep from rating too much. I soon gained my strength and lover grown in field ever since.

"A soon as that began to subside, my cough, fever, pain and night sweats all began to leave me, and my appetite became so great it aft it was with great difficulty that I could keep from rating too much. I soon gained my strength and lover grown in field ever since.

"I was weighed shortly after my recovery," abded the botto," then looking like a more skele GIVEN UP AS LOST.
